# Floors For A **Better** Tomorrow

As a leading German manufacturer of wall and floor coverings, the CLASSEN Group stands for technological leadership and sustainability. Under the slogan “Floors For A Better Tomorrow“, around 2,000 employees worldwide are committed to a sustainable future in all areas of the value chain. With great passion and expertise, they achieve outstanding results - from the careful use of resources through the long life cycle to the complete recycling of healthy-living wall and floor coverings.

CLASSEN intentionally avoids the use of chlorine, PVC and plasticisers for its environmentally friendly wall and floor coverings.

With numerous patents that are available to the entire industry, the company not only emphasises its own independence, but also its continuous commitment to preserving our natural resources. With CERAMIN®, CLASSEN has developed a material that consists largely of plastic recyclates and is 100 percent recyclable. In this way, CLASSEN is making an exemplary contribution to the circular economy.

Dr Hans-Jürgen Hannig founded the family-owned company in 1962 and the third generation is now working there.

# Made of **CERAMIN**

CERAMIN is a new high-performance composite material for wall and floor coverings. It can be used in almost all areas, is suitable for even the most demanding applications and is a frequently used alternative to ceramic and natural stone floors thanks to its wide range of design options.

CERAMIN is manufactured in Germany and consists of

60% mineral filler and 40% polypropylene, which in turn contains a high proportion of recycled material. The formula and manufacturing process have been patented by the CLASSEN Group. The formula was developed in-house, which allows 100% control over all ingredients.

# Award-winning and certified

On the one hand, the demand for products that are sustainable and do not harm the environment or future generations is constantly increasing. On the other hand, modern design, high quality and user-friendliness remain essential.

CERAMIN Tiles fulfil all the requirements for a healthy home. This is also confirmed by the numerous certificates and a 25-year warranty.
