ABOUT CASA

Home is where you love, dance, dream and relax. Where you cook, shower, play and spill. On a laminate as versatile as your life, as robust as you need it to be. Comfortable in the living room, scratch-resistant in the children‘s room, durable in the kitchen and even water-resistant in the bathroom.
Because: Your Home. Your Casa.

LLT anti scratch LLT anti static antibacterial+ by CLASSEN

FEATURES

Resistant laminate for a carefree home: explore our CASA collection from CLASSEN

- Secure and easy installation.
- CASA Floors can be used anywhere in the house.
- New LLT anti-scratch technology - the surface of our floors is even more durable and will last for many years.
- Thanks to LLT anti-static surface CASA products are not cumulating dust.
- Strong antibacterial properties.
- Sustainability at production. A minimum content of formaldehyde.

Underfloor heating
We allow water and electric underfloor heating for laminate only if all pipes (water) or cables and electric contacts (electric heating) are fully covered by concrete or cement so that a plane & even, dry and pressure stable underfloor can be assured. Furthermore any underfloor heating system needs a control unit that allows to limit the contact temperature to our floor to max. 28°C.

48/72h

New water resistant fold-down installation system for laminate floors.
megaloc aqua protect is so easy to install and gives you full protection. This unique system provides reliable water resistance by preventing water from entering the joints. Reliable and proven spill protection, up to 72 hours of constant contact with water.

72 h WR available in the CASA Corona.
48 h WR available in the CASA Energy, CASA Victory and CASA Prima collections.
